

SO YOU WANT TO BECOME A

Professional ICF coach?

Master Certification Programme for Coaches and Leaders Level 2

More than coaching skills — a professional foundation for creating impact.

This education combines **professional coaching competence with practical leadership skills**, giving you tools you can apply immediately in conversations, teams and organisations.

You will develop the ability to **listen deeply, ask powerful questions, create awareness and facilitate meaningful progress** — while strengthening your own leadership presence and effectiveness.

Whether you are an established coach or a leader or manager who wants to coach rather than simply manage, you will gain a **professional, practical and ICF-aligned coaching approach** that expands your capabilities and creates value for both you and the people you support.

Our ambition is to give you more than knowledge: the competence, confidence and professional tools to make every conversation count.

THE PROGRAMME

16 Training Days. Two Blocks. One Professional Journey.

Our **16-day coaching education** is structured into two blocks of eight training days, taking you from foundational coaching skills to **professional coaching competence**.
